About Design Kit

SEE A DEMO

The Dash Enterprise Design Kit lets you easily arrange, style, and customize Dash apps so that they can be deployed in no time. Data science teams can deploy beautiful, production-ready apps on any device, without writing a line of CSS.

Design Kit is our next-generation, reusable data design framework for Dash Enterprise. The feature provides a GUI with enterprise-friendly sidebars and headers, simplified layouts, and a point-and-click theme editor to rapidly unify data app look and feel.

With Design Kit, data apps that typically weigh in at 2,000 lines of can be pixel-perfect in just 200. The latest version offers customized popular themes and layouts as out-of-the-box presets for custom branding and interactive user interfaces.

Templates & Starter apps - hello, world!

Sometimes we all just need a little help getting started. Dash Enterprise comes with ready-to-use app templates, in the most popular layouts & starter apps allowing you to easily create highly polished applications and integrate them with a wide range of data sources. You can easily experiment with styles and layouts to get just the right look, including pre-built pixel-perfect templates so you can get up and running even faster.

6/07/2025, 05:37 Dash Design Kit

• Experiment with different layouts. • Add annotations and highlight KPIs. • Customizable colors, controls, headers, and navigational elements. • Create fully responsive, mobile-friendly apps. • • • Styling with Dash Bootstrap vs Dash Enterprise Design Kit
